These coastal wines are influenced by the sea to give real freshness and purity, making them an ideal partner for our local seafood. The soils are packed with fossilised sea shells which, when you combine with the cooling salty influence of the sea, help to create wines of real character.

The Fish Café has been a long-standing staple in Rye. We knew of it and had visited many times. So when the opportunity arose for us to be involved in this iconic business, we jumped at the chance!

Having spent the best part of two years on the outskirts of Rye running our pop-up, we were excited to be back, albeit in a slightly different guise - and we are incredibly aware that all of this is possible because of our guests. Those who came when the sun shone, and those who came on the rainy evenings to keep us company.

So here's to the next adventure...cheers to you!

Humbly, Fish Union @ The Fish Cafe
